Crown Shade Company

# Crown Uproller Spring Boxes

## Why Choose Uproller Spring Boxes?

- Ideal for privacy and light control in low-level, street-facing windows, first-floor apartments, and bathrooms where maintaining privacy without sacrificing natural light is essential
- Made to pair with Inception Shades
- Smooth and reliable performance - Engineered for consistent tension and controlled retraction, preventing fabric sagging or misalignment.

### INSTALLATION OPTIONS

**Inside Mounted**

- Mounts at the top of a window inside the window jamb for a clean modern look
- Pair with an inside mounted Inception or R Series shade

**Outside Mounted**

- Mounts above the top of the window and ships with end-caps to complete the installation
- Pair with an outside mounted Inception or R Series Shade

**Coupled**

- One continuous box with multiple springs installed to control a run of shades
- Note: size limitations of entry into the space before ordering

### PRODUCT FEATURES & OPTIONS

- Measures 2.2” (d) x 2.7” (h) and can be mounted inside a jamb or outside mounted with end caps
- Customized width to fit each opening*
  - Less than 50” (w) – 2 strings (each end)
  - Greater than 50” – 3 strings (each end and center)
  - Strings must be no more than 60” apart to prevent deflection in hembar
  - Custom thicker hembars available for specific circumstances
- Custom cut external hembar for easy connector to spring box system
- Consistent Tension eliminates slack and ensure smooth, controlled movement throughout operation
- Pair with an Inception or RSeries Shade

### COLOR SELECTION

- Material colors can be selected for the following parts of the system: head box and hem bar.
- Custom colors available for a custom charge

### MOTOR OPTIONS

- Wired 24v RS485 or RF
- Wired 12v RF
- Rechargeable 5v Battery
